

CASE STUDY

PROJECT TITLE:	Storage King Bletchley
CUSTOMER:	SAS Projects
CONTACT PERSON:	Jack Jennings
ADDRESS OF SITE:	Storage King Milton Keynes - Bletchley 39 Barton Road, Milton Keynes, Buckinghamshire, MK2 3HW
CONTRACT VALUE:	£ 21950
CONTRACT DURATION:	14th July 2025 – 25th July 2025
LOCATION OF WORKS:	Unit 1 – Full Perimeter and Unit 2 – 3 sides
SCOPE OF WORKS:	Unit 1 – 180m Full Perimeter With an overclad roof design, no equipment could be fixed directly to the roof. Our team designed and installed independent scaffold towers spaced strategically around the building, with handrails tied in at roof level from the internal legs – providing full edge protection without compromising the roof. A custom built 8m wide x 3m deep double-width loading platform was also installed to safely accommodate 7m roofing sheets. Unit 2 – 90m Across 3 Sides This flat roof replacement required a similar no-roof-contact approach. We built up from ground level using scaffold towers, connecting handrails at roof height across three elevations. A 4m wide x 3m deep loading bay completed the access package
